Culture and Structure
   "Software Development"

Developer consultants do any number of
things such as: writing code, managing
projects, creating stories, improoving buisiness
processes etc...

○ Company Structure
   – Chain of comand
      How tasks are delegated and work
   is aproved (who tells whom what to do.)
   – Departmentation
      Is one of the most important elements.
   IT cluster the teams by similar roles and
   allows you to undestand How each department
   conects to one another

Organic Organiozational Structure
